

Picture Story

50 points

Photograph two of your own picture stories, taking 50 pictures for each (so 100 photographs total). One story should be sequential in nature and the other story tells of an entire situation. Either document an event or set up a document to event! The goal is that all of your images will come together to explain the who-what-where-when-and-why of what was going on. Don't forget that the goal is to see creatively at the same time!

Grade Breakdown:

_____/10 Points Proper Exposures

_____/20 Attention to Composition

_____/20 Points Creative Vision
