

Pinhole Cameras

100 points

Using a camera made out of a cardboard box or other container as demonstrated in class, make at least one good paper negative in which you can see detail in both the highlight and shadow areas. Then, sandwich that negative to a piece of photo paper to make a positive contact print.

Grade Breakdown:

_____/25 Points Proper Exposure of Pinhole Negative

_____/25 Points Proper Exposure of Contact Print

_____/50 Points Creative Vision
